33 HP - Interim Tier 4 (Limited time)* - 4 cylinder diesel

Kubota WG1605

50 HP - Current emissions standards - 4 cylinder gasoline

***Tier 4 Diesel Regulations: Donkeys equipped with the Kubota D1305 engine are compliant with the EPA's tier 4 final diesel emission regulations that went into effect in 2013. The Kubota V1505 engine is certified to interim-tier 4 regulations. Under the EPA's Transition Program for Equipment Manufacturers (TPEM), the V1505 engine is acceptable to install and operate in new Donkeys. Engines falling under this program carry special labels that indicate to EPA and CARB inspectors that these engines are compliant to tier 4 regulations. To find out more about tier 4 regulations, contact us or a Kubota engine dealer.**
